

15-7200 Stamina® Magnetic Fusion 7200 Exercise Bike

Stamina® Fusion bikes represent the biggest innovation in stationary bikes since the introduction of the recumbent. This new category of exercise bikes combines the traditional biking feel of the upright with the comfort of the recumbent for a bike that you'll be able to use for longer, more effective, more ergonomically correct workouts.

The Stamina Magnetic Fusion 7200 bike has a sleek design to complement its innovative engineering. With comfortable, padded, oversized seat with seatback, oversized pedals, and walk-thru design, you'll be encouraged to work out longer. The seat slides at a 45 degree angle so your feet, legs, and hips are aligned to give you power on the downstroke and the upstroke for the best cycling workout possible.

- Push button control to change programs, adjust speed and resistance on the fly
- Interactive heart rate monitor with hand sensor
- Water bottle holder with bottle
- 12 preset programs
